

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

## Über dieses Buch

Dies ist ein digitales Exemplar eines Buches, das seit Generationen in den Regalen der Bibliotheken aufbewahrt wurde, bevor es von Google im Rahmen eines Projekts, mit dem die Bücher dieser Welt online verfügbar gemacht werden sollen, sorgfältig gescannt wurde.

Das Buch hat das Urheberrecht überdauert und kann nun öffentlich zugänglich gemacht werden. Ein öffentlich zugängliches Buch ist ein Buch, das niemals Urheberrechten unterlag oder bei dem die Schutzfrist des Urheberrechts abgelaufen ist. Ob ein Buch öffentlich zugänglich ist, kann von Land zu Land unterschiedlich sein. Öffentlich zugängliche Bücher sind unser Tor zur Vergangenheit und stellen ein geschichtliches, kulturelles und wissenschaftliches Vermögen dar, das häufig nur schwierig zu entdecken ist.

Gebrauchsspuren, Anmerkungen und andere Randbemerkungen, die im Originalband enthalten sind, finden sich auch in dieser Datei – eine Erinnerung an die lange Reise, die das Buch vom Verleger zu einer Bibliothek und weiter zu Ihnen hinter sich gebracht hat.

## Nutzungsrichtlinien

Google ist stolz, mit Bibliotheken in partnerschaftlicher Zusammenarbeit öffentlich zugängliches Material zu digitalisieren und einer breiten Masse zugänglich zu machen. Öffentlich zugängliche Bücher gehören der Öffentlichkeit, und wir sind nur ihre Hüter. Nichtsdestotrotz ist diese Arbeit kostspielig. Um diese Ressource weiterhin zur Verfügung stellen zu können, haben wir Schritte unternommen, um den Missbrauch durch kommerzielle Parteien zu verhindern. Dazu gehören technische Einschränkungen für automatisierte Abfragen.

Wir bitten Sie um Einhaltung folgender Richtlinien:

- + *Nutzung der Dateien zu nichtkommerziellen Zwecken* Wir haben Google Buchsuche für Endanwender konzipiert und möchten, dass Sie diese Dateien nur für persönliche, nichtkommerzielle Zwecke verwenden.
- + *Keine automatisierten Abfragen* Senden Sie keine automatisierten Abfragen irgendwelcher Art an das Google-System. Wenn Sie Recherchen über maschinelle Übersetzung, optische Zeichenerkennung oder andere Bereiche durchführen, in denen der Zugang zu Text in großen Mengen nützlich ist, wenden Sie sich bitte an uns. Wir fördern die Nutzung des öffentlich zugänglichen Materials für diese Zwecke und können Ihnen unter Umständen helfen.
- + *Beibehaltung von Google-Markenelementen* Das "Wasserzeichen" von Google, das Sie in jeder Datei finden, ist wichtig zur Information über dieses Projekt und hilft den Anwendern weiteres Material über Google Buchsuche zu finden. Bitte entfernen Sie das Wasserzeichen nicht.
- + *Bewegen Sie sich innerhalb der Legalität* Unabhängig von Ihrem Verwendungszweck müssen Sie sich Ihrer Verantwortung bewusst sein, sicherzustellen, dass Ihre Nutzung legal ist. Gehen Sie nicht davon aus, dass ein Buch, das nach unserem Dafürhalten für Nutzer in den USA öffentlich zugänglich ist, auch für Nutzer in anderen Ländern öffentlich zugänglich ist. Ob ein Buch noch dem Urheberrecht unterliegt, ist von Land zu Land verschieden. Wir können keine Beratung leisten, ob eine bestimmte Nutzung eines bestimmten Buches gesetzlich zulässig ist. Gehen Sie nicht davon aus, dass das Erscheinen eines Buchs in Google Buchsuche bedeutet, dass es in jeder Form und überall auf der Welt verwendet werden kann. Eine Urheberrechtsverletzung kann schwerwiegende Folgen haben.

## Über Google Buchsuche

Das Ziel von Google besteht darin, die weltweiten Informationen zu organisieren und allgemein nutzbar und zugänglich zu machen. Google Buchsuche hilft Lesern dabei, die Bücher dieser Welt zu entdecken, und unterstützt Autoren und Verleger dabei, neue Zielgruppen zu erreichen. Den gesamten Buchtext können Sie im Internet unter <http://books.google.com> durchsuchen.

# Das Gastmahl.

(Il convito.)

---

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million, from 2.5 million in 1980 to 4 million in 1995 (Department of Health 1996).

There is a growing emphasis on the need to improve the efficiency of the public sector, and to ensure that the public sector is able to deliver the services that are required by the public. This has led to a number of initiatives, including the introduction of competition, the restructuring of public services, and the introduction of new management practices. These initiatives have led to a number of changes in the way that public services are delivered, and have led to a number of improvements in the efficiency of the public sector.

One of the main reasons for the need to improve the efficiency of the public sector is the increasing pressure on public resources. The public sector is now facing a number of challenges, including the need to reduce costs, the need to improve the quality of services, and the need to ensure that the public sector is able to deliver the services that are required by the public. These challenges have led to a number of initiatives, including the introduction of competition, the restructuring of public services, and the introduction of new management practices.

These challenges have led to a number of initiatives, including the introduction of competition, the restructuring of public services, and the introduction of new management practices.

the 1990s, the number of people with a diagnosis of schizophrenia has increased by 20% in the United Kingdom (Meltzer 1996). In the United States, the prevalence of schizophrenia has increased by 50% in the last 20 years (Meltzer 1996).

There is a growing awareness of the need to improve the lives of people with mental health problems. The United Kingdom has a number of government initiatives to improve the lives of people with mental health problems. The Department of Health has set up a number of initiatives to improve the lives of people with mental health problems. the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million, from 2.5 million in 1980 to 4 million in 1995 (Department of Health 1996).

There is a growing emphasis on the need to improve the quality of care in the public sector, and to ensure that the public sector is able to meet the needs of the population. This has led to a number of initiatives, including the introduction of the Health Service Act 1990, which gave the Secretary of State for Health the power to set standards for the public sector, and the introduction of the Health Service Act 1997, which gave the Secretary of State for Health the power to set standards for the private sector. The Health Service Act 1997 also gave the Secretary of State for Health the power to set standards for the public sector, and to require the public sector to meet these standards.

The Health Service Act 1997 also gave the Secretary of State for Health the power to set standards for the private sector, and to require the private sector to meet these standards. This has led to a number of initiatives, including the introduction of the Health Service Act 1997, which gave the Secretary of State for Health the power to set standards for the private sector, and to require the private sector to meet these standards. The Health Service Act 1997 also gave the Secretary of State for Health the power to set standards for the public sector, and to require the public sector to meet these standards.

The Health Service Act 1997 also gave the Secretary of State for Health the power to set standards for the private sector, and to require the private sector to meet these standards. \_\_\_\_\_

the 1990s, the number of people in the world who are obese has increased by 100% (World Health Organization 1997). In the United Kingdom, the prevalence of obesity has increased from 10% in 1980 to 20% in 1995 (Health Survey for England 1996). The prevalence of obesity in children has also increased, from 6% in 1980 to 12% in 1995 (Health Survey for England 1996).

Obesity is a complex condition, with many causes. It is a result of an imbalance between energy intake and energy expenditure. The main causes of obesity are a diet high in calories and a sedentary lifestyle. Other factors that can contribute to obesity include genetics, hormones, and certain medications.

Obesity is a major risk factor for many chronic diseases, including heart disease, stroke, type 2 diabetes, and certain cancers. It can also cause problems with breathing, joint pain, and fertility. In children, obesity can lead to early onset of type 2 diabetes and other health problems.

There are many ways to prevent and treat obesity. The most important is to eat a healthy diet and get regular exercise. Other ways to prevent obesity include avoiding sugary drinks, eating more fruits and vegetables, and getting enough sleep.

Treatment of obesity usually involves a combination of diet, exercise, and medication. In some cases, surgery may be necessary. It is important to talk to a doctor about the best way to treat obesity.

Obesity is a preventable and treatable condition. By making healthy choices, we can reduce our risk of obesity and the health problems it can cause.

There are many resources available to help people prevent and treat obesity. The National Institutes of Health (NIH) has a website with information about obesity and its health consequences. The Centers for Disease Control and Prevention (CDC) also has a website with information about obesity.

Obesity is a complex condition, but it is not hopeless. By making healthy choices, we can prevent and treat obesity and live a longer, healthier life.

Pfad des beabsichtigten Ganges zurückzukehren. Ich sage demnach, daß diese letzte Meinung des gemeinen Hausens so verhärtet ist, daß ohne andre Rücksicht, ohne Untersuchung irgend eines Grundes, ablich Jeder genannt wird, der der Sohn oder Enkel ist eines vermögenden Mannes, wenn er auch selbst nichts ist. Und dies ist Das, was ausgedrückt ist: Und so verjährt ist er, der falsche Wahn, zu dem wir uns bekennen, Und ablich alle nennen, Die prahlend von sich selber sagen können, Sohn oder Enkel nennt mich solcher Starke, Obwol sie leer an Marke, weshalb zu bemerken ist, daß es die gefährlichste Nachlässigkeit ist, die schlechte Meinung Fuß fassen zu lassen; denn wie das Unkraut sich in einem unbebauten Felde vermehrt, und übersteigt und bedeckt die Aehren des Weizens, sodas, von fern schauend, man den Weizen nicht gewahr wird, und die Frucht endlich vergeht, so wächst und vermehrt sich auch die schlechte Meinung im Geiste, wenn sie nicht gereinigt, noch verbessert wird, sodas die Aehren der Vernunft, das heißt die wahre Meinung sich verbirgt und gleichsam begraben sich verliert. O wie groß ist mein Unternehmen in dieser Kanzone, nunmehr ein so kleevolles Feld jäten zu wollen, wie das der allgemeinen Meinung, die so lange von diesem Anbau verlassen ist! Gewiß, ich beabsichtige nicht es ganz zu reinigen, sondern bloß in denjenigen Theilen, wo die Aehren der Vernunft nicht ganz unterdrückt sind, das heißt, ich denke Diejenigen aufzurichten, in welchen noch einiger Schimmer der Vernunft vermöge ihrer guten Natur lebt; denn um die Andern hat man sich so viel zu kümmern wie um unvernünftige Thiere, denn es scheint mir nicht weniger Wunder, sie zur gänzlich erloschenen Vernunft zurückzuführen, als Denjenigen ins Leben zurückzuführen, der vier Tage im Grabe gelegen hat. Nachdem die üble Beschaffenheit dieser Volksmeinung angegeben ist, da plötzlich, gleichsam wie etwas Erschreckliches, fährt jene

herein außer aller Ordnung des Vorrurfs mit den Worten: Höchst niedrig, denkt man scharf, erscheint doch, wer, um deren unerträgliche Schlechtigkeit zu verstehen zu geben, indem ich sage, daß sie am meisten lügen, weil ein solcher nicht blos niedrig ist, das heißt nicht adlich, der vom Guten abgelassen hat und bösgesinnt ist, sondern sogar höchst niedrig ist, und ich nehme ein Beispiel her von dem gezeigten Wege, wo um dies zu zeigen ich eine Frage thun muß und darauf antworten auf diese Weise. Eine Ebene ist, mit gewissen Fußpfaden, ein Feld mit Hecken, mit Bächen, mit Steinen, mit Holzwerk, fast mit allen Hindernissen, ohne ihre engen Fußpfade. Beschneit ist sie, sodaß Alles der Schnee bedeckt und allenthalben ein Einerlei darbietet, sodaß man von einem Fußpfade keine Spur sieht. Nun kommt Jemand von einer Seite der Landschaft und will nach einer Wohnung gehen, welche sich auf der andern Seite befindet, und durch seine Bemühung, das heißt durch Nachdenken und gute Geistesfähigkeit, blos durch sich selbst geleitet, betritt er den rechten Weg dahin, wohin er will, indem er die Stapfen seiner Füße hinter sich läßt. Ein Anderer kommt nach ihm und will nach dieser Wohnung gehn, und er braucht nur den gelassenen Fußstapfen zu folgen, und durch seine Mangelhaftigkeit verfehlt dieser den Weg, welchen der Andre ohne Führer zu finden wußte, und windet sich durch die Dornen und durch die Trümmer, und nach der Seite zu, wohin er soll, geht er nicht. Welchen von diesen darf man stark nennen? Ich antworte: Den, welcher voranging. Den Andern, wie wird man den nennen? Ich antworte: höchst niedrig. Warum wird er nicht nichtstark, das heißt niedrig genannt? Ich antworte: Weil nicht stark, das heißt niedrig, Derjenige zu nennen sein würde, der ohne einen Führer zu haben, nicht richtig gegangen wäre; aber weil dieser ihn hatte, kann sein Irthum und seine Mangelhaftigkeit nicht zunehmen, und deswegen ist er nicht

Figure 1. A schematic diagram of the experimental setup. The subject is seated in a chair, viewing a video screen. The screen displays a target (a small circle) and a starting point (a larger circle). The subject's hand is positioned at the starting point, and the video screen shows the hand's position relative to the target. The subject is instructed to move the hand to the target. The video screen is controlled by a computer, which records the hand's position and the time taken to reach the target.

the 1990s, the number of people in the world who are under 15 years of age is expected to increase from 1.1 billion to 1.5 billion (United Nations, 1994).

There is a growing awareness of the need to provide a better quality of life for the world's children. The United Nations Convention on the Rights of the Child (1989) has been signed by 113 countries, and the United Nations Development Programme (1990) has produced the *State of the World's Children* report.

the 1990s, the number of people in the United States who are obese has increased by 50% (Flegal et al. 2000). In the United Kingdom, the prevalence of obesity has increased from 10% in 1980 to 15% in 1997 (Health Survey for England 1997). In the United States, the prevalence of obesity has increased from 15% in 1980 to 23% in 1994 (Flegal et al. 2000).

Obesity is a complex condition, and the aetiology is multifactorial. It is a result of an imbalance between energy intake and energy expenditure. The energy intake is determined by the amount of food and drink consumed, and the energy expenditure is determined by the amount of physical activity. The balance between energy intake and energy expenditure is determined by a number of factors, including genetics, environment, and lifestyle. The most common cause of obesity is a combination of a high-calorie diet and a sedentary lifestyle. Other factors that can contribute to obesity include genetics, hormones, and certain medications. Obesity is a major public health problem, and it is important to understand the factors that contribute to it in order to develop effective prevention and treatment strategies.

the 1990s, the number of people with a diagnosis of schizophrenia has increased in the United Kingdom (Meltzer 1997). The prevalence of schizophrenia in the United Kingdom is estimated to be 1.2% (Meltzer 1997). The prevalence of schizophrenia in the United States is estimated to be 1.1% (Meltzer 1997).

There is a growing awareness of the need to improve the quality of life of people with schizophrenia. The World Health Organization (WHO) has developed a set of guidelines for the management of schizophrenia (WHO 1993). The guidelines recommend that people with schizophrenia should be treated with a combination of medication and psychosocial interventions. The guidelines also recommend that people with schizophrenia should be treated in a community setting, rather than in a hospital. The guidelines also recommend that people with schizophrenia should be treated by a multidisciplinary team, including psychiatrists, psychologists, nurses, and social workers.

The guidelines also recommend that people with schizophrenia should be treated with a combination of medication and psychosocial interventions. The guidelines also recommend that people with schizophrenia should be treated in a community setting, rather than in a hospital. The guidelines also recommend that people with schizophrenia should be treated by a multidisciplinary team, including psychiatrists, psychologists, nurses, and social workers. The guidelines also recommend that people with schizophrenia should be treated with a combination of medication and psychosocial interventions. The guidelines also recommend that people with schizophrenia should be treated in a community setting, rather than in a hospital. The guidelines also recommend that people with schizophrenia should be treated by a multidisciplinary team, including psychiatrists, psychologists, nurses, and social workers.

The guidelines also recommend that people with schizophrenia should be treated with a combination of medication and psychosocial interventions. The guidelines also recommend that people with schizophrenia should be treated in a community setting, rather than in a hospital. Figure 1. Percentage correct responses for the three groups. Control = solid line, MCI = dashed line, AD = dotted line.

the AD group. The MCI group was significantly better than the AD group on the first trial ( $F(1, 14) = 10.0$ ,  $p < 0.01$ ) and on the last trial ( $F(1, 14) = 10.0$ ,  $p < 0.01$ ).

There was a significant interaction between group and trial ( $F(4, 56) = 3.5$ ,  $p < 0.01$ ). The MCI group was significantly better than the AD group on the first trial ( $F(1, 14) = 10.0$ ,  $p < 0.01$ ) and on the last trial ( $F(1, 14) = 10.0$ ,  $p < 0.01$ ).

There was a significant interaction between group and trial ( $F(4, 56) = 3.5$ ,  $p < 0.01$ ). The MCI group was significantly better than the AD group on the first trial ( $F(1, 14) = 10.0$ ,  $p < 0.01$ ) and on the last trial ( $F(1, 14) = 10.0$ ,  $p < 0.01$ ).

There was a significant interaction between group and trial ( $F(4, 56) = 3.5$ ,  $p < 0.01$ ). The MCI group was significantly better than the AD group on the first trial ( $F(1, 14) = 10.0$ ,  $p < 0.01$ ) and on the last trial ( $F(1, 14) = 10.0$ ,  $p < 0.01$ ).

There was a significant interaction between group and trial ( $F(4, 56) = 3.5$ ,  $p < 0.01$ ). The MCI group was significantly better than the AD group on the first trial ( $F(1, 14) = 10.0$ ,  $p < 0.01$ ) and on the last trial ( $F(1, 14) = 10.0$ ,  $p < 0.01$ ).

There was a significant interaction between group and trial ( $F(4, 56) = 3.5$ ,  $p < 0.01$ ). The MCI group was significantly better than the AD group on the first trial ( $F(1, 14) = 10.0$ ,  $p < 0.01$ ) and on the last trial ( $F(1, 14) = 10.0$ ,  $p < 0.01$ ).

the 1990s, the number of people with a mental health problem has increased by 50% (Mental Health Foundation 1999). The prevalence of mental health problems has increased in the general population, and the incidence of mental health problems has increased in the prison population.

There is a growing awareness of the need to address the mental health needs of prisoners. The Department of Health (1999) has published a strategy for mental health services, which includes a commitment to improve the mental health of prisoners. The Department of Health (1999) has also published a strategy for mental health services, which includes a commitment to improve the mental health of prisoners. The Department of Health (1999) has also published a strategy for mental health services, which includes a commitment to improve the mental health of prisoners.

The Department of Health (1999) has published a strategy for mental health services, which includes a commitment to improve the mental health of prisoners. für Mensch, so erkläre ich dies für falsch. Denn es gibt viele ältere Personen, die an Ansehen nicht nur nicht den Jüngern vorangehen, sondern umgekehrt, wie sich ergibt, wenn Bischöfe den Jahren nach jünger sind als die unter ihnen stehenden Archipresbyters. Und so scheint der Einwurf darin zu irren, daß sie Etwas als Ursache annehmen, was es nicht ist.

Auch nach dem Buchstaben des ersten Buches der Könige führen sie die Wahl und Absetzung Saul's an, und sagen, daß Saul auf den Thron gesetzt und des Throns entsetzt wurde von Samuel, der statt Gott dies Amt verwaltete laut der Schrift. Und daraus folgern sie, daß, wie jener Stellvertreter Gottes das Recht hatte, die weltliche Herrschaft zu geben und zu nehmen, und auf einen Andern zu übertragen, so auch jetzt der Stellvertreter Gottes, der als allgemeiner Vorsteher der Kirche das Recht hat, den Stab der weltlichen Herrschaft zu geben, zu nehmen und auch zu übertragen. Hieraus würde ohne Zweifel folgen, daß das Ansehen des Kaiserthums abhängig wäre, wie sie sagen. Hierauf dient zur Antwort, um die Behauptung hinwegzuräumen, daß Samuel der Statthalter Gottes gewesen sei, daß er dies nicht als Statthalter, sondern als besonderer Gesandter für diesen Zweck, oder als ein Bote in besonderem Auftrage des Herrn that. Dies leuchtet ein, weil er nichts weiter als Gottes Befehl ausrichtete und überbrachte. Daher ist zu bedenken, daß zwischen einem Statthalter und einem Boten oder Diener ein Unterschied ist, sowie ein Lehrer und ein Ausleger auch nicht verwechselt werden müssen; denn ein Statthalter oder Stellvertreter ist Der, dem die Gerichtsbarkeit, sei es eine gesetzmäßige oder eine willkürliche, übertragen ist, und deswegen kann er innerhalb der Grenzen dieser gesetzmäßigen oder willkürlichen Gerichtsbarkeit etwas vornehmen, wovon der Herr durchaus nichts weiß. Der Bote kann das aber nicht, sofern er Bote ist; sondern gleichwie der Hammer bloß vermöge

der Kraft des Schmids wirkt, so kann auch der Bote bloß nach dem Gutünken Dessen handeln, der ihn schickt. Es folgt also nicht, daß, wenn Gott dies durch den Samuel als Boten that, daß der Statthalter Gottes dies auf gleiche Weise könne. Denn Vieles hat Gott durch Engel gethan, thut es und wird es thun, was der Statthalter Christi und Nachfolger Petri nicht thun könnte. Daher ist der Beweis dieser Menschen vom Ganzen auf den Theil so zu stellen: der Mensch kann hören und sehen, also kann das Auge hören und sehen. Das geht nun nicht. Aber es würde auf widerlegende Weise so gehen: der Mensch kann nicht fliegen, folglich können die Arme des Menschen nicht fliegen. Und gleichfalls so: Gott kann durch seinen Boten nicht bewirken, daß Geborenes nicht geboren ist, nach Agathon's Meinung; folglich kann es auch der Statthalter nicht.

Sie führen auch nach dem Buchstaben des Matthäus das Geschenk der Magier an, und sagen, er habe zugleich Weihrauch und Gold empfangen, um damit anzuzeigen, daß er Herr und Verweser der geistlichen und weltlichen Angelegenheiten sei. Daher meinen sie, daß der Statthalter Christi Herr und Verweser derselben Dinge sei und folglich Gewalt über beiderlei habe. Hierauf antwortend lasse ich den Buchstaben des Matthäus und den Sinn desselben gelten; aber Das, was sie daraus herleiten, hat einen Fehler im Begriffe. Denn sie schließen so: Gott ist Herr der geistlichen und weltlichen Dinge: der Papst ist Statthalter Christi: folglich ist er Herr der geistlichen und weltlichen Dinge; denn beide Vorder- und Unter- und der Mittelbegriff ist nicht derselbe, und das Ganze hat also vier Begriffe, was bei einem Schlusse nicht angeht: was aus der Lehre vom Schlusse einfach hervorgeht. Denn Gott im Obersatz und der Statthalter Gottes im Untersatz sind etwas Verschiedenes. Und wenn Jemand einwürfe, daß der Statthalter gleich gelte, so wäre dieser Einwurf unstatthaft, denn kein

the same time, the fact that the same person can be both a subject and an object of a relation is not a contradiction.

For example, the relation "is a friend of" is a relation between two persons. It is possible for a person to be a friend of himself.

Similarly, the relation "is a lover of" is a relation between two persons. It is possible for a person to be a lover of himself.

Therefore, the fact that the same person can be both a subject and an object of a relation is not a contradiction.

On the other hand, the fact that the same person can be both a subject and an object of a relation is not a contradiction.

For example, the relation "is a friend of" is a relation between two persons. It is possible for a person to be a friend of himself.

Similarly, the relation "is a lover of" is a relation between two persons. It is possible for a person to be a lover of himself.

Therefore, the fact that the same person can be both a subject and an object of a relation is not a contradiction.

On the other hand, the fact that the same person can be both a subject and an object of a relation is not a contradiction.

# Dante's Briefe.

---

## V o r w o r t.

Die Sammlung der größtentheils in lateinischer Sprache geschriebenen Briefe Dante's ist noch immer sehr klein, obgleich sie sich bis jetzt bis auf vierzehn vermehrt hat, von denen nur ein einziger unecht zu sein scheint. Noch vor 50 Jahren war nur einer vorhanden, der letzte in dieser Sammlung, der ausführlichste zwar, aber weniger ein Brief als eine Abhandlung, eine Einleitung in die göttliche Komödie und insofern wichtig, über das Leben des Dichters jedoch wenig Licht verbreitend. Im Jahre 1790 machte Dionisi den von der Charakterkraft und dem edlen Stolze Dante's das herrlichste Zeugniß gebenden Brief an einen Florentinischen Freund bekannt; es ist der dreizehnte in dieser Sammlung. Außerdem gab es nur noch Uebersetzungen von zwei Briefen an den Kaiser Heinrich VII. und an die Fürsten Italiens bei des Ersteren Ankunft in Italien. Die jetzige Vermehrung derselben verdanken wir dem Herrn Professor Witte, der in Italien vor wenigen Jahren mehrere entdeckte, nachdem er schon im Jahre 1827 die damals vorhandenen herausgegeben hatte. Von seinem Funde hat er in den

Blättern für literarische Unterhaltung, 1838, Nr. 149 — 151 Nachricht gegeben. Fraticelli nahm sie in seine Sammlung der Werke Dante's auf, und Torri wiederum in die seinige, welche im vorigen Jahre (1843) in Livorno erschien. — Es ist zu hoffen, daß bei dem Eifer, der gegenwärtig besonders die Deutschen, und nächst dem die Italiener für Dante beseelt, die Zahl der Briefe sich bald vermehren werde.

---

## I. An den Kardinal von Prato.\*

[1304.]

Dieser dem Dante nicht ausdrücklich beigelegte Brief ist im Namen des Anführers, Alessandro da Romena, des Rathes von zwölf Personen, zu denen Dante selbst gehörte, und der Gesamtheit der aus Florenz vertriebenen Weissen an den Kardinal Nikolaus von Ostia, Albertini aus Prato, gerichtet. Dieser Kardinal war von dem erst am 22. Oktober 1303 zum Pontifikat erhobenen Papst Benedikt XI. zu Anfang des Jahrs 1304 abgesandt worden, um in Toskana, der Maremma und Romagna zwischen Gibellinen und Guelfen, Weissen und Schwarzen, und wie sonst noch die fast in jeder Stadt einander feindlich gegenüberstehenden Parteien hießen, Frieden zu stiften. Er traf am 10. März in Florenz ein und wußte sich schnell fast unbedingtes Zutrauen zu erwerben; bald aber verbreitete sich das angeblich durch untergeschobene Briefe genährte Gerücht, daß er die verbannten Weissen zum Schaden der in Florenz zurückgebliebenen Schwarzen begünstige; und nachdem er sich am 8. Mai zu einer Reise nach Pistoja hatte bereben lassen, gelang es ihm nicht mehr, in Florenz Aufnahme zu finden. Der gegenwärtige, vermuthlich im März 1304, und zwar vom oberen Arnothal, wohin die Mehrzahl der Verbannten sich geflüchtet, geschriebene Brief nun läßt uns glauben, daß der von den Schwarzen dem

Friedensstifter gemachte Vorwurf schwerlich ein ganz unbegründeter war. Es ergibt sich daraus, daß der Kardinal seine Thätigkeit mit der Sendung eines Frater L. an die verbannten Weißen begonnen und ihnen dabei brieflich volle Wiedereinsetzung in ihre älteren Rechte und Reorganisation ihres Vaterlandes im Sinne jener Vertriebenen verheißen. So wissen sie denn Worte des Dankes, die ihnen genügend schienen, nicht zu finden, und versichern die Demüthigung ihrer Gegner nur zum wahren Heile ihrer Heimat zu begehren. Zugleich versprechen sie, nach dem Begehren des Kardinals sich aller Feindseligkeiten gegen die Schwarzen zu enthalten und die endlichen Friedensbedingungen allein jenem Vermittler zu überlassen.

---

Dem Hochverehrlichen Vater in Christo, dem Günstling seiner Gebieter, dem Herren Nikolaus, durch Gottes Gnaden Bischof von Ostia und Velletri, des apostolischen Stuhles Legaten und von der hochheiligen Kirche abgeordneten Friedensstifter Tusciens, Romagnas, der Meeresküste und der umliegenden Landschaften empfehlen sich als gehorsamste Söhne der Anführer Alexander, der Rath und die Gesamtheit der Partei der Weißen von Florenz.

1. Durch heilsame Erinnerungen gemahnt und durch apostolische Sanftmuth aufgefordert, antworten wir nach Uebereinstimmung von uns gepflogenen Rathe auf den Inhalt der

Paradiese gewesen sei, fährt er in seiner Umschreibung fort, „er habe Dinge gesehen, die man nicht mit Worten aussprechen kann, wenn man herabgekommen ist“, und zwar mit Angabe des Grundes, „weil der Verstand so tief eindringt“ in sein Verlangen selbst, das heißt, in Gott, „daß er mit dem Gedächtniß nicht nachkommen kann.“ Zum Verständniß dieser Worte ist zu bemerken, daß der menschliche Verstand in diesem Leben, wegen gleicher Natur und Verwandtschaft mit der für sich bestehenden Verstandeswesenheit, wenn er sich erhebt, sich so erhebt, daß wegen Ueberschreitung des menschlichen Maßes das Gedächtniß nach der Rückkehr mangelt. Dies deutet auch der Apostel an, wenn er zu den Korinthern spricht<sup>1</sup>: „Ich kenne denselbigen Menschen (ob er in dem Leibe oder außer dem Leibe gewesen ist, weiß ich nicht, Gott weiß es), er ward entzückt in das Paradies, und hörte unaussprechliche Worte, welche kein Mensch sagen kann.“ Siehe, weil der Aufschwung das menschliche Maß des Verstandes überschritten hatte, erinnerte er sich nicht an Das, was außer ihm vorging. Dies bezeichnet uns auch Matthäus<sup>2</sup>, als die drei Jünger auf ihr Angesicht fielen und nachher nichts davon erzählten, als ob sie es vergessen hätten. Und Ezechiel<sup>3</sup> schreibt: „Ich sah und fiel auf mein Angesicht.“ Und wenn dies den Bedenklichen noch nicht genügt, so mögen sie den Ricardus de sancto Victore in dem Buche von der Beschaulichkeit lesen, lesen den Bernhard in dem Buche von der Betrachtung, lesen den Augustinus in dem Buche von der Vielheit der Seele, und sie werden nicht länger bedenklich sein. Wenn sie aber glauben sollten, daß bei einer so gewaltigen Geisteserhebung die Sündhaftigkeit des Sprechers an seinem Verstummen Schuld sei, so mögen sie den Daniel<sup>4</sup> lesen, und sie werden finden, daß selbst

<sup>1</sup> 2. Kor. 12, 3 u. 4. <sup>2</sup> 17, 6 u. 7. <sup>3</sup> 2, 1. <sup>4</sup> 2, 3.

Nebukadnezar göttliche Gesichte hatte, die gegen die Sünden gerichtet waren, und sich nicht daran erinnern konnte. Denn „Er, der die Sonne aufgehen läßt über Gute und Böse, und regnen läßt über Gerechte und Ungerechte“<sup>1</sup>, der offenbart bisweilen, um sie aus Barmherzigkeit zu bessern, bisweilen um sie strenge zu bestrafen, mehr oder weniger, nach seinem Gefallen, seine Herrlichkeit auch Denen, die sich noch so gröblich versündigten.

29. Der Dichter sah also, wie er sagt, Dinge, welche wieder zu erzählen nicht weiß noch kann, wer zurückkehrt. Man beachte die Ausdrücke nicht weiß und nicht kann. Nicht weiß, weil er sie vergaß, nicht kann, weil, wenn er sich auch an den Inhalt erinnerte und ihn fest hielt<sup>2</sup>, dennoch das Wort mangelt. Denn Vieles sehen wir mit dem Verstande, wofür es der Stimme an Zeichen fehlt, was Plato hinlänglich andeutet in seinen Büchern über die Benützung der Metaphern; denn Vieles sah er mit dem Lichte des Verstandes, was er mit der Rede nicht eigentlich ausdrücken konnte.

30. Dann heißt es weiter: er werde Das sagen, was er von dem himmlischen Reiche behalten konnte, und dies sei der Stoff des Werkes; was und welcherlei Art dies sei, wird sich in dem ausführenden Theile zeigen.

31. Wenn es dann heißt: O guter Apoll u. s. w., so ist dies der Anruf. Und dieser Theil hat zwei Theile, in dem ersten bittet er ihn anrufend, in dem zweiten legt er dem Apollo die gethane Bitte ans Herz, mit dem Versprechen einer Art von Belohnung, und dieser zweite Theil beginnt: O göttliche Kraft. Der erste Theil zerfällt in zwei Theile; in dem ersten bittet er um die göttliche Hülfe, in dem zweiten berührt er die Nothwendigkeit seiner Bitte oder rechtfertigt sie und fängt an: Bis hieher war die eine Kuppe des Parnass ic.

<sup>1</sup> Matth. 5, 45. <sup>2</sup> Dante's Gastmahl 3, 4. Höle 28, 4.

The first of these is the fact that the  
 government has been unable to  
 maintain a stable currency. This  
 has led to a loss of confidence  
 in the government and a  
 consequent loss of support  
 from the people. The second  
 is the fact that the government  
 has been unable to maintain  
 a stable economy. This has  
 led to a loss of confidence  
 in the government and a  
 consequent loss of support  
 from the people. The third  
 is the fact that the government  
 has been unable to maintain  
 a stable society. This has  
 led to a loss of confidence  
 in the government and a  
 consequent loss of support  
 from the people.

the 1990s, the number of people in the United States who are aged 65 and older has increased by 25 percent, and the number of people aged 75 and older has increased by 40 percent. The number of people aged 85 and older has increased by 60 percent. The number of people aged 95 and older has increased by 100 percent. The number of people aged 100 and older has increased by 200 percent. The number of people aged 105 and older has increased by 300 percent. The number of people aged 110 and older has increased by 400 percent. The number of people aged 115 and older has increased by 500 percent. The number of people aged 120 and older has increased by 600 percent. The number of people aged 125 and older has increased by 700 percent. The number of people aged 130 and older has increased by 800 percent. The number of people aged 135 and older has increased by 900 percent. The number of people aged 140 and older has increased by 1000 percent.

The number of people in the United States who are aged 65 and older has increased by 25 percent, and the number of people aged 75 and older has increased by 40 percent. The number of people aged 85 and older has increased by 60 percent. The number of people aged 95 and older has increased by 100 percent. The number of people aged 100 and older has increased by 200 percent. The number of people aged 105 and older has increased by 300 percent. The number of people aged 110 and older has increased by 400 percent. The number of people aged 115 and older has increased by 500 percent. The number of people aged 120 and older has increased by 600 percent. The number of people aged 125 and older has increased by 700 percent. The number of people aged 130 and older has increased by 800 percent. The number of people aged 135 and older has increased by 900 percent. The number of people aged 140 and older has increased by 1000 percent.

Figure 1. The effect of the number of trials on the number of correct responses. The number of correct responses was significantly higher than the number of incorrect responses in all cases. The number of correct responses was significantly higher than the number of incorrect responses in all cases.

the 1990s, the number of people in the United States who are employed in the service sector has increased from 50 to 60 per cent of the total workforce. The service sector is now the largest sector in the United States economy, and it is expected to continue to grow in the future. The service sector is also the most dynamic sector in the United States economy, and it is the source of most of the new jobs created in the United States.

The service sector is also the most diverse sector in the United States economy, and it includes a wide range of occupations. The service sector includes occupations such as retail sales, food service, health care, education, and government. The service sector is also the most important sector in the United States economy, and it is the source of most of the new jobs created in the United States.

The service sector is also the most important sector in the United States economy, and it is the source of most of the new jobs created in the United States. The service sector is also the most dynamic sector in the United States economy, and it is the source of most of the new jobs created in the United States. The service sector is also the most diverse sector in the United States economy, and it includes a wide range of occupations.

the 1990s, the number of people with a mental health problem has increased by 50% (Mental Health Foundation 1999). The prevalence of mental health problems has increased in the general population, and the incidence of mental health problems has increased in the prison population.

There is a growing awareness of the need to address the mental health needs of prisoners. The Department of Health (2000) has published a strategy for mental health services, which includes a commitment to improve the mental health of prisoners. The Department of Health (2000) has also published a strategy for mental health services, which includes a commitment to improve the mental health of prisoners. The Department of Health (2000) has also published a strategy for mental health services, which includes a commitment to improve the mental health of prisoners. the 1990s, the number of people in the world who are undernourished has increased from 600 million to 800 million. The number of people who are malnourished has increased from 1.2 billion to 1.5 billion. The number of people who are obese has increased from 100 million to 300 million.

There is a growing awareness of the need to address the problem of malnutrition. The World Health Organization (WHO) has launched a global strategy to reduce malnutrition. The strategy is based on three pillars: (1) improving the quality of food, (2) increasing the availability of food, and (3) improving the access to food. The WHO is working with governments and other organizations to implement this strategy.

There are many reasons why malnutrition is a problem. One reason is that food is often of poor quality. Food is often high in calories but low in nutrients. This is because food is often processed and refined. Another reason is that food is often not available. Food is often expensive and difficult to obtain. This is because food is often imported from other countries. A third reason is that food is often not accessible. Food is often not available in certain areas, such as rural areas. This is because food is often transported by road, and roads are often poor.

There are many ways to address the problem of malnutrition. One way is to improve the quality of food. This can be done by encouraging farmers to grow more nutritious crops. Another way is to increase the availability of food. This can be done by supporting local food production. A third way is to improve the access to food. This can be done by improving roads and other infrastructure. There are many other ways to address the problem of malnutrition. The WHO is working with governments and other organizations to implement these ways.

There are many challenges to addressing the problem of malnutrition. One challenge is that food is often expensive. This is because food is often imported from other countries. Another challenge is that food is often not available in certain areas. This is because food is often transported by road, and roads are often poor. A third challenge is that food is often not accessible. This is because food is often not available in certain areas, such as rural areas. There are many other challenges to addressing the problem of malnutrition. The WHO is working with governments and other organizations to overcome these challenges.

the 1990s, the number of people with a diagnosis of schizophrenia has increased in the United Kingdom (Meltzer 1996). The prevalence of schizophrenia in the United Kingdom is estimated to be 1.2% (Meltzer 1996). The prevalence of schizophrenia in the United States is estimated to be 1.1% (Meltzer 1996).

There is a growing awareness of the need to improve the lives of people with schizophrenia. The World Health Organization (WHO) has developed a set of guidelines for the management of schizophrenia (WHO 1993). The guidelines recommend that people with schizophrenia should be treated with a combination of medication and psychosocial interventions. The guidelines also recommend that people with schizophrenia should be treated in a community setting rather than in a hospital.

The purpose of this study was to evaluate the effectiveness of a community-based intervention for people with schizophrenia. The intervention was designed to provide people with schizophrenia with a range of services, including medication management, psychosocial support, and housing. The intervention was evaluated using a randomized controlled trial design.

The study was conducted in a community-based setting. The intervention was delivered by a team of professionals, including nurses, social workers, and housing officers. The intervention was evaluated using a randomized controlled trial design.
